SEASONS & LIMITS

Our seasons and limits must comply with the seasons set by the Maryland Department of Natural Resources. Our season generally runs from mid-November through January.

The limits are set each year in September.

Maryland's Eastern Shore is well known for its excellent goose hunting.

We offer goose hunting as its best from field, pond and water blinds. Our farms are located in Kent County and Queen Anne County. Top quality decoys are used.

We have many years of experience hunting geese. Our guides work hard to insure your success, enjoyment and safety. Our success rate is 90%. We want to send you home with good memories of your hunt.

Maryland offers a 3-day waterfowl license which may be purchased at our farm or online at dnr.state.md.us. In addition to the license, you will also be required to purchase a state waterfowl stamp and a federal migratory stamp. These items may also be purchased at the farm or online.

Lodging is available on the Kennedyville farm for your convenience. Meals are not included. There is a restaurant 1½ miles from the farm.
